Daniel Xu, Trombone

長號獨奏 許志千

Daniel is a 12th grade student at Stuyvesant High School. Besides chemical engineering, he has a deep interest in music. As Jason, Executive Director of Youth Orchestra, CYCNY, recalled, "I still remembered what happened to Daniel when he came to his first rehearsal with his mom a few years back; he didn't have his trombone with him..." He didn't even have his own trombone three years ago. Now he is the principal trombonist of Youth Orchestra, CYCNY, section leader of New York All-City Marching Band, and 1st chair trombone in Stuyvesant Symphonic Band.

Daniel began studying trombone three years ago with Mr. Chingmin Chang, trombonist and Vice Principal of The New York Institute

of Culture and Art. Under the guidance of Mr. Chang, Daniel passed the ABRSM Trombone Grade 8 Exam and won the 1st Place Prize in the Trombone Category of the Manhattan International Music Competition, October 2016.

In 9th grade, Daniel joined Youth Orchestra, CYCNY. Since then, he's performed in all concerts with the orchestra, such as its annual Lincoln Center Concert, Holiday Concert, concert at The Silvercrest Center for Nursing & Rehabilitation, and Poppenhusen Institute Concert. On September 8, 2016, he was selected as one of the fifteen members of the NY All-City Marching Band to perform on NBC's Tonight Show With Jimmy Fallon. As part of the marching band, Daniel played in numerous parades such as the Veteran's Day Parade and the Memorial Day Parade. He also performed at the New York City Honors Music Festival for High School Students in April of 2017. Furthermore, Daniel's tried his hand at jazz. He was on the stage with Stuyvesant Jazz band.

His interest in music extends beyond trombone performance. He served as a music director for Stuyvesant Theater Community. Daniel composes and arranges music as a hobby.

Daniel has enjoyed diverse musical genres. Passionate in music, he wants to keep the momentum beyond high school.

許志千是Stuyvesant高中12年級的學生。除了化學工程外，他對音樂十分感興趣。正如紐約幼獅青少年管弦樂團行政總監Jason所說，「我還記得志千幾年前和媽媽來參加第一次排練的場景……他沒有帶長號來……。」三年前他甚至沒有自己的長號樂器。現在他是紐約幼獅青少年管弦樂團的主要長號手、紐約市高中行軍樂隊的分部隊長，以及Stuyvesant交響樂隊的第一長號。

許志千自三年前開始師事長號表演家與立人學苑副校長張晉銘老師。在張老師的指導下，他通過了ABRSM長號8級考試，並於2016年10月獲得曼哈頓國際音樂比賽長號類別第一名。

9年級時，許志千加入紐約幼獅青少年管弦樂團。此後他參與管弦樂團舉行的所有音樂會，如林肯中心年度音樂會、假日音樂會、Silvercrest護理與康復中心的音樂會和Poppenhusen學院音樂會。

2016年9月8日，許志千獲選為紐約市高中行軍樂隊的十五名成員之一，在NBC的Tonight Show with Jimmy Fallon節目中表演。作為行軍樂隊的一員，許志千在諸如退伍軍人節遊行和紀念日遊行等無數遊行中表演，更於2017年4月在紐約市高中生榮譽音樂節上演出。此外，許志千還是爵士樂手，他曾參與Stuyvesant爵士樂隊的演出。

許志千對長號表演之外的音樂其他方面也很感興趣。他擔任Stuyvesant劇院社區的音樂總監。許志千愛好編曲和作曲。許志千涉足不同流派的音樂。熱衷於音樂，他希望能保持對音樂的執著和努力。

Name : Ryan Chen
School : Great Neck South High School
Grade : 10th
Instrument : Violin

I started learning how to play the violin in the fourth grade, but I was asking for lessons since the third grade. Whenever someone would mention the world violin, I could hear from almost a mile away. I was basically in love with the instrument, and when I first touched a violin I was felt like I was melting. The first time I really had knowledge that the violin existed was when my cousin showed me a video of a street violinist who was super cool. I couldn't stop watching it and I think that's when I fell in love. At first I mostly wanted to learn how to play because it was cool. But as I started to learn more, and seeing other violinist play like Hillary Hahn and Lindsey Stirling, I realized how amazing music truly was. And from there I started to listen to music from many other people and the emotions that I felt from them were indescribable. Music is a reminder of life and it's beauty, and that's what I want people to know. I hope I can grow more as a musician and share this beautiful language that our orchestra speaks.

Name : Olivia Chiang
School : Herricks Middle School
Grade : 8th
Instrument : Violin

I am a newcomer to CYCNY. Since joining the orchestra, I have enjoyed the weekly practice and met many new friends. I appreciate the learning and coaching from my mentor, and have improved in my skill with the violin. CYCNY has given us many opportunities to perform at various venues and I am excited to be performing in our concert at Lincoln Center in May.

Why I want to learn music?
Ever since I was a child I've drowned my ears in music, even though sometimes I didn't understand some of the lyrics of certain songs, I realized that music is a language anybody is capable of understanding. Thus the reason why I want to learn music is to further understand this fascinating universal language.

What other instrument would you have chosen instead of your current one?
If had to chose another instrument besides the ones I am currently playing, it would be the guitar. This is because whenever I hear the guitar on the radio I would literally feel the emotions the singer would be feeling at the time. Therefore the guitar would have been my next pick as an instrument.

If there was a song that you wanted the orchestra to play, what would it be?
If there was a song that you wanted the orchestra to play, what would it be? I find playing songs that are not classical fun. I want to play songs from my favorite musical, Phantom of the Opera. I think it's cool when you play music you recognize from somewhere else.

What do you hope for in the upcoming winter break?
First of all, I hope it snows. No Christmas is complete without snow. Also, I hope to see some of my family, like my aunt, uncle, and cousin in Pennsylvania, over the break.

YOUTH ORCHESTRA, CYCNY

Name : John Dong
School : John F. Kennedy Middle School
Grade : 6th
Instrument : Violin
What made you want to start playing music?
I wanted to play music because my sister was playing music and I wanted to do the same. My mom also made me but I thought playing music at an early age would be a cool concept since I would be better than other people my age.
What do you hope for in the upcoming winter break?
I wanted to go to my aunts house in Pennsylvania. There, I want to go skiing for the first time and go out together as a family.

Name : Cindy Han
School : M.S. 158
Grade : 6th
Instrument : Violin
Why did you want to learn music?
I wanted to learn music because music has so many qualities at once. Music can be a soothing symphony that reminds you of your happiest memories, or it can be a cure to depression. Meanwhile, music can also arouse a sudden state of excitement and it can be very festive. As if seamlessly, music represents many different vivacious emotions ubiquitously, and this was what inspired me to learn.

Name : Katie Hu
School : Herricks Middle School

Instrument : Flute
If there was a song that you wanted the orchestra to play, what would it be?
I would like to play the imperial march from "Star Wars"

Name : Ethan Hung
School : Nathaniel Hawthorne MS 74
Grade : 7th
Instrument : Violin
What other instrument would you have chosen instead of your current one? and why?
I would like to play the trombone. I'm currently learning how to play it at my school.
What do you hope for in the upcoming winter break?
I'm just hoping for a lot of snow this year despite global warming. I also want a lot of presents on Christmas.
What are your hobbies?
My hobbies include listening to the Cuphead soundtrack and playing various games from Armor Games.
Would you recommend joining the CYCNY?
I would despite that it may seem challenging at first, it becomes easier later. You can also meet a lot of people who might share the same interests as you.

Name : Mia Hung
School : MS 67
Grade : 8th
Instrument : Violin
What do you hope for in the upcoming winter break?
I am looking forward to Christmas and hanging out with my family and friends. Also looking forward to sleeping in late and playing lots of Zelda games during the break. My favorite piece this year is "The Barber of Seville" because of the key change and the repeated patterns are sort of catchy. The present I am most looking forward to getting (if my family decides it is worth it to get it) is either Zelda: Breath of the Wild or a different WiiU game from the Zelda series. (Skyward Sword?)

Instrument : Trumpet
What's your favorite kind of music and why?
My favorite kind of music is jazz because it's calming and smooth.
Why do you like playing your instrument?
I like playing my instrument because it is a very royal instrument for fanfares.

Name : Mitchell Jung
School : Manhasset Middle School
Grade : 7th
Instrument : Cello
Cello was my first choice of instrument to play. However, if i could not play cello, then I definitely would have tried to learn alto saxophone as it is more portable compared to the cello, and considerably much more stylish.
I wanted to learn music because I have always wanted to be multiskilled whether it be in academics or music. However, music was something that began my passion of making electronic music, and producing it.
Starting with the piano and cello.
Personally, one song I would love for the orchestra to play is the theme song of "Tonari no Totoro." by Joe Hisaishi.
Honestly, any song by Joe Hisaishi is fine, but Tonari no Totoro is the one I want to play with the orchestra the most.
Finally, in the upcoming winter break, I hope to be able to have at least 3rd chair in the cello seat. I also want people to have good health, and a happy new year.

Name : Lillian Kwong
School : Bronx High School of Science
Grade : 12th
Instrument : Percussion
What other instrument would you have chosen instead of your current one? and why?
I would have chosen the cello which produces rich and warm music. The cello also has a wide range of notes which also fascinates me. Listening to cello is so calming; so if I have the opportunity, I would want to learn how to play the cello.
Why did you want to learn music?
At the age of 7, I started piano lessons, and music has stayed with me ever since. I used to think that practicing piano was a chore. I did not really get the point of practicing or what learning music was for. After passing piano ABRSM Level 8 in 9th grade, I lost my motivation in practicing piano. By then, my brother started learning the snare drum and percussion instruments caught my interest. After stopping piano lessons for a short while, I started learning the snare drum too and soon after that, I transitioned into being a mallet percussionist by learning to play the xylophone. That was probably one of the best decisions I've made. When I hit the wooden bars with mallets to make music, I actually feel that it is a form of stress relief for me. Music also helps me build self-confidence. The minute I set foot on stage for a performance, all I have on my minds is how to showcase my skills and play my part well. There is no greater gratification than everyone putting forth their best skills on stage and play a musical piece close to perfection!
If there was a song that you wanted the orchestra to play, what would it be?
Unlike the string, woodwind or brass players, mallet percussionists who play the xylophone and bells do not always have a big part in orchestra music. Sometimes they do not have the opportunity to play at all. For me, however, I am good at the marimba which is like a big xylophone. For the next concert, I would like to play a song that has a solo part for the marimba rather than as accompaniment to a musical piece.

BRAVO!

What other instrument would you have chosen instead of your current one? and why?
I would have chosen the violin because I get to play with a group, so even if I play something wrong, the audience probably won't notice. The violinist also gets to play a wide range of notes as compared to percussion instruments, and they also get to sit down and play as opposed to percussionists who stand the whole time.

Why did you want to learn music?
My first instrument was the piano which I played for several years. When I was in 4th grade, I attended the Youth Orchestra's Winter Concert. This made me want to join and the Orchestra. I started learning to play the snare drum, then the xylophone and then the drum set. Playing percussion instruments not only opened up the door for me to join the Youth Orchestra but also the All City High School Marching Band.

If there is a song that you wanted the orchestra to play, what would it be?
I don't have a preference but playing contemporary songs are fun. I also feel that playing songs from movies or musicals are fun too because the audience is familiar with the songs as compared to just playing all classical pieces.

What do you hope to do in the upcoming winter break?
I hope I can relax and have fun. This winter break, my family and I will be going to South Carolina for our winter vacation. This will also my sister's very last winter vacation before she goes to college.

Name : Ericka Lai
School : Manhasset Secondary School
Grade : 7th
Instrument : Cello
What other instrument would you have chosen instead of your current one? and why?
The other instrument that I would have chosen instead of my current one is the bass. It's low tunes are soothing to the ears, and not many people play the bass. It is a calming and relaxing instrument that is similar to the cello.

Name : Marcus Lee
School : Benjamin N. Cardozo High School

What do you hope for in the upcoming winter break?
During the upcoming winter break, I hope to take a vacation with my family. I am really looking forward to go snowboarding in Stratton, Vermont. Even though it will be my third time going snowboarding, and I will probably fall every time, I'm still looking forward to have fun with my friends and family. Hopefully it doesn't get too cold, and I don't get a lot of homework.

Instrument : Viola

Why did you want to learn music?

Music has become a large proportion of my life for the past years of my life from this orchestra, to quartets, and chamber music. Imagining my life without it seems almost unreal. I started off on piano and quickly started viola too. But I particularly remember seeing so many of my fellow classmates talking about how much they loved playing and piano. Being a curious child I wanted to see what this hype was all about. Ever since I have fallen in love with music, and with the amount of variations between pieces that make each its own special tone and expression. Also the fact that I can hear a song playing somewhere in a movie or on the radio and with a quick search for sheet music be able to play it.

What do you hope for in the upcoming winter break?

I just hope to have a happy and fun filled time with my family and friends. With the hectic schedule of high school and the enormous work load. Having this time off will really allow me to unwind and be less stressed over school. My views of breaks have changed drastically over time from when I was younger to now. Back then, only thinking about the presents and the materialistic aspects. However, now seeing it more as a time to connect with people and just enjoy company. Hope you all enjoy the concert!

Name : Evan Liang
School : South Woods Middle School
Grade : 6th

If there was a song that you wanted the orchestra to play, what would it be?

Another instrument I would like to play is the clarinet because it has a nice ring to it. It just intrigues me. It has always been my favorite instrument after Cello and piano. I started to like cello because I was starting to learn it in elementary school. So, I asked my mom to get me private lessons. Now I like the Cello so much. I would want the orchestra to play "The Emperor strikes back" or "Hedwig's Theme" . The Star Wars and Harry Potter songs are really good. Both songs sooth me. I want to go on vacation especially Kalahari Resort. It is so fun there.

Name : Michael Liao
School : PS196
Grade : 4th
Instrument : Percussion

What other instrument would you have chosen instead of your current one? and why?

I would have chosen the piano. The piano is the first instrument I play. I also have more experiences with it than my other instruments. I think playing piano gives me the foundation of music and helps me to learn other instruments quickly.

Why did you want to learn music?

I just like playing instruments, whether I actually like it or not.

If there was a song that you wanted the orchestra to play, what would it be?

I think maybe "Castle on the hill". I think so because to me, it is a combination of rock and countryside music. I do like rock and countryside music. To me, it is pretty good.

What do you hope for in the upcoming winter break?

I have multiple choices. One is going to Legoland. Another is playing my craft. Maybe a cruise ship (one that does not make me seasick). Also Disneyland.

Name : Grace Liao
School : Great Neck South Middle School

What has been the best part of your CYCNY orchestra experience thus far?

The best part of CYCNY so far is all the great friends I have made during this experience. I also love the music which we play and playing in all of the concerts.

Why do you like playing your instrument?

I enjoy playing the clarinet because I feel like as I play and practice more, the music continues to sound better and I really like the sound of the clarinet, it's not very high or very low.

What other instrument would you have chosen instead of your current one? and why?
I wanted to learn music because it gives many benefits. Learning music requires you to stay focus. This helps me to concentrate in school. Music also makes me to stay calm whenever I am not in a good mood.

What do you hope for in the upcoming winter break?
This upcoming winter break I hope to go skiing with friends. I also hope to go to NYC to see how they celebrate Christmas.

Name : Justin Lin
School : Benjamin N. Cardozo High School
Grade : 11th
Instrument : Trombone
Why did you want to learn music?
I started learning music in elementary school, specifically in 4th grade. I remember not being able to play "Hot Cross Buns" when I was asked to; it was an embarrassing moment. From that moment, I've been practicing more and more in order to improve my musical skills. Music is much more appealing to you when you actually get to play the music itself. Sure, sometimes some of the songs are not appealing to people, but there are songs where it can really boost a passion to develop and improve on techniques for the instrument. It's also something that can add on to your list of hobbies and talents.

Name : Vivienne Lin
School : Nathaniel Hawthorne MS 74
Grade : 8th
Instrument : Violin
What other instrument would you have chosen instead of your current one? and why?
I would have chosen to play the piano instead of violin because I love the harmony the piano produces. Not only does it flow smoothly, but it is always on tune (lol, you have to always tune the violin to make sure it's not out of tune). In addition, the piano has a long range of notes and many famous pieces, such as Fur Elise have been written specifically for the piano. To be honest, I have always wanted to play piano since I was 6. However, I couldn't really practice piano, since it took up too much space, so I had to learn violin instead. Thankfully, I have grown to love playing the violin, so it's all good :).

Why did you want to learn music?
I wanted to learn music because I had heard different people play their own instruments. At that time, I envied them, so I decided that I wanted to learn one too and be just like them.

If there was a song that you wanted the orchestra to play, what would it be?
If there was a song that I wanted this orchestra to play, it would be "Hopes and Dreams" by Toby Fox or "Blood Sweat and Tears" by BTS because although they have a large contrast in tune, both of them have a great distinct rhythm and a catchy melody.

What do you hope for in the upcoming winter break?
I hope that I would go on vacation to some exotic place that I have never been to. But of course, that is not very possible, as I will probably have tons of homework each day... xd, I hope the teachers will not (or forget to) give us any homework, projects, or tests, so I would have a school-free winter break. Obviously, I would like to just have fun and get a break from school... and oh yea- especially just SLEEP and do nothing all day (except to eat)!

YOUTH ORCHESTRA, CYCNY

Name : David (Pin-Yi) Lin
School : Syosset High School
Grade : 12th
Instrument : Trumpet

What other instrument would you have chosen instead of your current one? and why?

I would have chosen Percussion instruments, considering that it was my original choice in school. My band teacher decided to that I should play the trumpet instead of playing in the Percussion section, which leads to what I am right now. I think playing in the Percussion section is quite an interesting experience, considering how many instruments you can learn. It always seems very fun in ways that playing the trumpet doesn't have, but both have their pros and cons. Plus, you rarely see any percussionists who are able to play well while also being quite mature and responsible.

I am thankful that we have someone like that in our orchestra and I wish to see more of that in all bands and orchestras.

Why did you want to learn music?

I wanted to do something besides drawing so that I can open my interests. Currently I'm trying to make my own music for a videogame that I've been making, and it has been an interesting process, listening to all kinds of music from different media. If done right, music can really affect the soul and mind, making you feel warm or even get the chills. Music is an experience that everyone should learn, even if you don't want to. You can learn a thing or two about the music that you listen to every day.

If there was a song that you wanted the orchestra to play, what would it be?

A mix of several songs from Kingdom Hearts is definitely a must. The soundtrack from the game is mostly played by an amazing orchestra that happened to visit America recently. Their performance was nominal, and I believe our orchestra can do it. Hopefully everyone will agree with me once they listen to it and talk to our conductor for what I believe will be an amazing experience.

What do you hope for in the upcoming winter break?

I hope to relax since my college applications should mostly be done by then. I also will continue to make some art for my online community that has been really growing in the thousand range.

Free Space: Enjoy the concert and have a very wonderful winter vacation! See you all next year at Lincoln Center.

Name : Ethan Lin
School : Stuyvesant High School
Grade : 9th
Instrument : French Horn

What other instrument would you have chosen instead of your current one? and why?

I would have played the trombone. The trombone looks like a great bass instrument and it looks very fun to slide the (I don't know what it's called) slider back and forth. The strong tone of the instrument gives it a powerful feeling. Trombone players get that workout every time they play. Bassoon is another option that I would take. It sounds very crisp and the instrument is somewhat lighter and compact when taken apart than mine.

Why did you want to learn music?

I learned music because I was inspired by the way all of the instruments came together and made a song that sounded so great. Music was also one of my early hobbies.

If there was a song that you wanted the orchestra to play, what would it be?

A song that I want the orchestra to play is Jurassic Park by John Williams. I have always been a big fan of John Williams movie soundtracks. Each one of them is unique in its own way. Another John Williams song that I would like the orchestra to play is the Indiana Jones movie soundtrack.

What do you hope for in the upcoming winter break?

I plan on nothing much during my winter break. Most of it will consist of sleeping for 360,000 seconds of sleep. Do the math in your head. I also plan on traveling to Antarctica and see the flocks of penguins. Jk. I also plan on learning the following coding languages: JavaScript, Python, and C++.

What other instrument would you have chosen instead of your current one? and why?
Well, I would choose the cello because of the deep sound. Actually, when I was small I learned the cello before, but the teacher was so mean I literally quit in the first 3-5 months..(I know, I'm wasting my parents' money.....) Another instrument would be the oboe because the orchestra doesn't have a oboe player so if I did learn the oboe I would be the star of the show.....just kidding, lol, I would like to play the oboe because of its funny but beautiful sound and it looks cool....hehe
Why did you want to learn music?
I wanted to learn music because, well, because I saw many people learning instruments. Also, my sister played the violin so I wanted to learn an instrument too.

If there was a song that you wanted the orchestra to play, what would it be?
If there was a song I would REALLY like the orchestra to play is a part from Harry Potter called Hedwig's Theme. It a very mysterious and you know, I don't know how to explain it....but yea if I wanted the orchestra to play something, it would be Hedwig's Theme.

Why did you want to learn music?
I wanted to learn music because to me, its ability to express emotions is unparalleled. Listening to classical and romantic music has become a part of my daily life and I am always inspired to produce the same beauty through the violin.
If there was a song that you wanted the orchestra to play, what would it be?
Beethoven Symphony 5

A wet jumpshot.

Name : Albert Liu
School : Manhasset High School
Grade : 11th
Instrument : Viola
What other instrument would you have chosen instead of your current one? and why?
I would have chosen the bass. Ever since I started learning the guitar, I also grew interested in the bass. In bands, the bass provides the foundation of the band's sound. In the orchestra, the bass also plays a very important part in balancing the spectrum of sounds. The bass is also huge and therefore looks cool.
Why did you want to learn music?
I've always loved listening to music and discovering new types of music. Music has always been very entwined in almost all aspects of my life so a fascination in instruments came naturally to me at a young age.
What do you hope for in the upcoming winter break?
I hope to spend quality time with my family. I also wanna be able to dunk.

YOUTH ORCHESTRA, CYCNY

Name : Toby Ou
School : Nathaniel Hawthorne MS 74
Grade : 7th
Instrument : Violin
What other instrument would you have chosen instead of your current one? and why?
Well i mean the younger you are the easier the instrument, but i wont choose anything else because violin is my favorite instrument and i don't want to cheat on it so. HAHA funny right, but i wouldn't because I have no time and my life is full scheduled.

Why did you want to learn music?
As a child i loved to listen and watch people play instruments. So, I decided to ask my mom to let me play an instruments. Yes, you will feel that you want to quit, but sometimes maybe, just a little step will lead to a big change.

If there was a song that you wanted the orchestra to play, what would it be?
Well, I would like to do a song with Hanks and James. Oh, hi if you are on the different page but, um... i would like to play Secrets by One republic, right now i am writing this while fining the song sheet.

What do you hope for in the upcoming winter break?
I hope my parents won't make me go to academy, because its torture.

Free Space: I hope everyone has a awesome winter break and have a great Christmas, Hanukah, or Kwanzaa.

Name : Denise Peng
School : Townsend Harris High School
Grade : 9th
Instrument : Flute
What other instrument would you have chosen instead of your current one? and why?
I wanted to learn music because music calms me down and makes me happy. Music can be very soothing or very upbeat and exciting. It communicates emotions and messages that the composer is trying to convey and it's fun to try and be able to replicate that feeling for other people.

What other instrument would you have to choose instead of your current one? Why?
I would play a percussion instrument because percussion adds to the music and its feeling. I think it would be an interesting experience to learn how to play an instrument I don't know that much about yet.

What do you hope for in the upcoming winter break?
In the upcoming winter break, I just want to relax and hang out with my friends. There's usually a lot going on, so during the break I want to sit back and focus on friends and family.

Name : Wendy Qu
School : Manhasset High School
Grade : 11th

What other instrument would you have chosen instead of your current one? and why?
Music is universal language. Had I not chosen to learn the violin, I would have chosen to learn the cello! It has such a rich color of sound and sounds beautiful.

Why did you want to learn music?
I wanted to learn music because it allows people to express emotion and allows those who listen to feel a certain way. It can make people listening feel sad, but it can also make people feel happy.

What do you hope for in the upcoming winter break?
For the upcoming winter break, I hope to visit somewhere warm! Or if not, visit some colleges across the northeast.

YOUTH ORCHESTRA, CYCNY

Name : Amelie Song
School : Bronx High School of Science
Grade : 9th
Instrument : Flute
What other instrument would you have chosen instead of your current one? and why?
If I were to choose another instrument other than my current one, I would have chosen the violin because I enjoy the sound of the violin and most string instruments. My sister also plays the violin, so I was able to actually see someone practicing the violin up close. I had the choice of choosing flute or violin, so I chose flute, the alternative would have been the violin.

Why did you want to learn music?
I wanted to learn music because I had seen many concerts and performances when I was young. They were able to play these complex songs and thought that it would be fun to be able to play. The school band also inspired me since the students looked like they had fun while practicing and performing together. I had started out with the piano since it interested me the most, and then switched to the flute so I could join orchestra and play together with everyone else.

Name : James Tsai
School : Marie Curie Middle School
Grade : 8th
Instrument : Violin
What other instrument would you have chosen instead of your current one? and why?
I would have chosen saxophone instead of violin because saxophone is an instrument that can be carried around all day. In a pub, saxophone could be very soothing and when you sleep this instrument can make you rest peacefully without any disturbance. Not only that, Kenny G is one of my best idol of all time and plays any simple song in a more creative variation.

If there was a song that you wanted the orchestra to play, what would it be?
The song I want the orchestra to play will be Zigeunerweisen by Pablo de Sarasate.
What do you hope for in the upcoming winter break?
I hope to go to Canada to ski and play snow all day long for the upcoming winter break.

Name : Arthur Stewart
School : Townsend Harris High School
Grade : 9th
Instrument : Violin
Why did you want to learn music?
At first, to be honest, it was because my mom forced me to learn. However, as time progressed, I grew to understand the importance. Learning music has helped me to better understand and evaluate the music that I hear in daily life. Music has also been a timeless form of expression for us as human beings, since it had help us overcome the hardest points of time and celebrate the best points of time in the past. It can do the same to our lives in the present, only if we bother to learn it. This is why I continue to learn music :))

If there was a song that you wanted the orchestra to play, what would it be?
We could try some folk music or pieces in general from other cultures to reflect the vibrant diversity in our city, New York. It would also be interesting to see us play music from kdrama ost's. Specifically, we could play music from Descendants of the Sun; and Everytime all have nice instrumental versions that we could play.

What do you hope for in the upcoming winter break?
I hope that we can all get necessary rest from the chaotic hustle of school or work, and S-L-E-E-P!!! Hopefully we can all enjoy this break with our family and friends. Personally, I hope that I can recharge myself and be less awkward next semester.

Free Space: Sit back and enjoy our performance! Have a happy holiday and stay safe!!!

What other instrument would you have chosen instead of your current one? and why?

Piano, because I think that you can enjoy yourself playing with the instrument, and playing piano can help you get better in other instruments.

Why did you want to learn music?

I wanted to learn music because I like music and makes me feel good.

If there was a song that you wanted the orchestra to play, what would it be?

If there was a song that I wanted the orchestra to play, it would be to play Jupiter, because it is very challenging.

What do you hope for in the upcoming winter break?

I hope for the upcoming winter break that there will be lots of snow to play with my brother James.

Name : Tony (Tongshu) Wen

School : The Brooklyn Latin School

Grade : 10th

Instrument : Bassoon

Why did you want to learn music?

I did not expect any extraordinary achievements when I first started to learn music. It was such a coincidence. I joined the new wind band in my school when I was in 5th grade, and started learning saxophone, just for my curiosity. But soon enough, I discovered my music talent and became attached to it. Then I started learning the bassoon when I was 13, and became a member of the orchestra in my middle school. This year I joined CYCNY, and continued the unexpected journey of music.

If there was a song I wanted the orchestra to play, it'll be pieces from the musical Hamilton.

Name : Alexis Weng

School : Baccalaureate Schol for
Global Education

Grade : 8th

Instrument : Cello

Why did you want to learn music?

Learning music wasn't a choice I made when I first started but now after almost 10 years, I would definitely continue music. Music is a way for me to relieve stress and a way to calm down. Listening to music is a hobby of mine and when I do, I feel relaxed and it's almost like I'm traveling to a whole new universe where I'm at peace. When you're focused on music and not everything else happening in your life, it becomes stress-free and fun. Does anyone agree?

If there was a song that you wanted the orchestra to play, what would it be?

I was probably thinking of pop music when reading this question. Not like the past pieces we've played like "Born This Way" by LadyGaga but more like a song full of emotion. One option would be "Why" by Sabrina Carpenter. "Why" has this melodic feel and after hearing it, I fell in love. Playing an orchestral version of this would be unbelievable and with all the possible harmonies, it would be utterly amazing.

What do you hope for in the upcoming winter break?

I don't exactly have much planned for the break. Probably just chilling at home with a bag of chips and Netflix. I would definitely want to go snowboarding again like I did last year but besides that, I don't have anything specific that I'm planning on doing.

Free Space:

I don't want to write something basic like everyone else writes like "Enjoy the Concert!"

Instead, I want everyone that's watching us to relax and forget about your stress-filled lives during our concert!

Hope y'all have fun!

YOUTH ORCHESTRA, CYCNY

Name : Vicky Wong
School : Halsey JHS 157
Grade : 6th

Instrument : Viola

What other instrument would you have chosen instead of your current one? and why?

I would have wanted to play the flute because the flute is a wood wind instrument. I started off with the piano which is a percussion instrument. Then the viola which is a string instrument, so to switch things up, I would want to play the flute.

If there was a song that you wanted the orchestra to play, what would it be?

In late May, my favorite song was Symphony by Zara Larsson and Clean Bandit. The more I think about it though, since the song was based on a "Symphony" it would probably sound good in an orchestra too. There is a version of this song using string instruments (and a piano and a drum-set) on Youtube by Marco Cano, It sounds really nice but I think without the guitar, the song would've sounded better. So I think if there was an orchestra version, it would sound pretty good too.

What do you hope for in the upcoming winter break?

I hope in the upcoming winter break that I will do good in the Hunter entrance exam because I missed so many fun opportunities just to study for it. I also hope that all the hard work will pay off, and even if I don't pass the Hunter Exam, at least I would have learned something and could use that knowledge to prepare for the SHSAT instead.

Name : Daniel Xu
School : Stuyvesant High School
Grade : 12th

Instrument : Trombone

I choose to pursue music because its ability to encourage, inspire, and simply move people intrigues me. Thus far, I have studied the intricacies of music through my AP Music Theory class and continue to practice it to understand how I can reproduce and create pieces that not only amaze people, but also express my emotions and speak in a language that words cannot capture. Music is complex, but each and every day, I strive to learn more about the way it works, and why people enjoy it.

To me, music is the medium that connects people from all backgrounds regardless of their race or religious differences. In fact, the it's potential to people together as a family has led me to join a variety of music groups like the New York All-City Marching Band and the Stuyvesant Theatre Community where I made many friends.

I plan to pursue music going into college. I'm aiming to double degree in both science and music, one being the Bachelor of Music. To say the least, this would include more than playing in a school band. But given my passion for music, I will embrace it wholeheartedly and I'm excited to see where it will take me.

Name : William Xu
School : Roslyn Middle School
Grade : 8th

Instrument : Percussion

What is your favorite genre of music?

My favorite genre of music would probably be classical music. It is very relaxing and soothing and I have always listened to it with my parents since I was a child.

What is your favorite music?

My favorite piece of music this year is Fantasia in D Minor. I played it for my piano NYSSMA and I think it is a beautiful piece of music.

Why do you like playing your instrument?

I like playing percussion because it strikes me as very unique. Unlike the piano or violin which are very standard, it is much harder to hear the "music" in drums. In order to make the drums sound musical instead of just noise, you need a lot of control and creativity. I feel like you can express your personality and feelings on drums very well which allows every drum musician to sound different. I think that once you start to understand drums and why they are very important in any orchestra or band, they will become much more appreciated. Anyways, drums have become part of my life now and I really enjoy playing them. I hope you enjoy the concert!

YOUTH ORCHESTRA, CYCNY

Why did you want to learn music?
I wanted to learn music since music reduces my stress when I have lots of work. Music relaxes my brain and gives energy to do work. Furthermore, playing music is very fun since by playing my clarinet, I can connect with other people who also play an musical instrument. Music enlarges my social circle and makes my life very interesting and musical. Last not but least, music helps me to build confidence. For instance, playing clarinet not only makes me feel talented, but also makes me look attractive when I perform on stage. Therefore, it is a good experience for me to learn music!

Name : Tina Zhao
School : Herricks Middle School
Grade : 8th
Instrument : Violin
What other instrument would you have chosen instead of your current one? and why?
I would have either chosen the flute or the viola. The viola is an octave lower than the other string instruments, and I think the sound is very unique. For the flute, the sound of it is super lovely and I think it would be really fun to play both of these instruments.
Why did you want to learn music?
I have been obsessed with Beauty and the Beast lately, and whenever I watch the movie I can hear the orchestra accompanying the characters. Since it is a classic movie, I would really love to play beauty and the beast as a whole orchestra.
Free space: Sit back, relax, and enjoy!
Thank you for coming!

Name : Elyssa Yong
School : Adrien Block I.S. 25 Middle School
Grade : 8th
Instrument : Alto Saxophone
What other instrument would you have chosen instead of your current one? and why?
Despite having played my instrument for a fairly long time, other instruments have piqued my interest. If I were given the chance to, the violin would be my choice. I have heard multiple people play it, and it seems very versatile, being able to play a variety of styles as well as allowing a clear sound to be produced. I have also seen multiple alto saxophone and violin duets that seem interesting to me.
Why did you want to learn music?
Music is something that everyone can connect to, despite having language barriers. Whenever I hear music, I know that people learn and create it because it is simply what they love. I want to learn music because I simply like it. There is no feeling to describe it, but I feel like music has done so much for everyone, as well as it has for me.

What do you hope for in the upcoming winter break?
In the upcoming winter break, I hope to spend lots of time with my friends and family. I will do homework and study for my classes as well. I wish everyone a merry Christmas and happy holidays!

Name : Yue Zhuo
School : Bronx High School of Science
Grade : 11th
Instrument : Flute
What other instrument would you have chosen instead of your current one? and why?
In terms of instruments in the orchestra, I probably have chosen either percussion or cello. With percussion, I like to believe that I would have been able to express my slightly (not really) "above average" rhythm skill, while with cello, I just think the sounds a cello can produce can be very full and flowing and overall beautiful, and also it would've helped me to hear lower parts of songs better. In terms of non-orchestral instruments, I would've chosen the guitar since it's one of the 'basic' instruments for doing song covers.
Why did you want to learn music?
I hope I can just sit at home, relax, spend time with my family, and not have to worry about any deadlines. I also want to visit the Bryant Park Winter Village with my friends and just spend the day wandering around the city. I hope everyone enjoys their break and I'm looking forward to seeing what our Annual Concert Program looks like!
Merry Christmas and Happy Holidays to all!
